EX	15	Extract of grand selections from a manuscript entitled the peace maker : by the great Mormon prophet, J. Smith, wherein is contained all the secrets of Mormonism in relation to the vows of marriage, polygamy, spiritual wives, whoredom, adultery, fornication, rapes, concubinage, virginity, etc., etc. ; doctrines, however strange, if true, need not be entwined with mystery ; I detest--nay, abhor--sly tuition which afterwards requires public denunciation ; if a principle be true in secret, it is equally so in public.
