BIBLE ATLAS.

The Bible Atlas contains 38 physical maps of Palestine, based upon the results of an actual survey, with an identification of the biblical sites as far as known; also 82 progressive historical maps embracing a special map for each specific period of the country's history, from the earliest date to the present time.

This Atlas is about 4½ in. by 7 in., and all maps are in colors.

These maps have been indorsed by historical authorities and by religious workers, irrespective of creed, (Israelitish, Protestant and Catholic) as the best maps on the subject ever printed.

We will send this book beautifully bound in leather, prepaid, on receipt of \$1.00; with text, \$1.50.

THE POATES COMPLETE ATLAS OF THE WORLD.

This Atlas contains maps of the United States, its forty-eight States, its Territories, its Insular Possessions, together with the Canadian Provinces, and other divisions of the Dominion, besides every other country of the world.

It has many points of superiority over similar publications being offered to-day. Every square inch of its plates is new, having been made by the best map engravers in this country. It is attractive in appearance and compact in form. No home, library, school, bank, or office can afford to be without it. A ready reference, which it is a pleasure to handle.

The maps are printed in five (5) and six (6) colors. This liberal use of color plates enables the showing of many special features. Railroads are shown in red, mountains in brown, water in blue, and political divisions are accurately defined. All these standing out clearly,

with no chance for confusion—no mistaking say, railroad for a river or boundary line, etc.

The latest geographical changes, such as every county in the United States to date, political changes in Canadian Provinces, French and German Boundaries, in Africa, as well as the late changes in India and China, are accurately shown on these maps.

The Atlas, in octavo, has 193 pages of maps; an Alphabetical Index of States and Countries, besides the States and their counties, and important cities and towns with their populations, according to the 1910 United States Census; also, a list of the principal cities of the world. Convenient size, 7 in. by 10 in., each map occupying two pages.

It comes in two bindings, cloth and semi-flexible leather; the latter most attractive—with gold stamp.
